- Production Rider - *Comedy Show*

ROOM ACCESS:

Clear paths into the performance area is always important, it guarantee's a quick setup time which optimizes the performance.

TECHNICAL REHEARSAL TIME:

Minimum 15 minutes rehearsal time needs to be organised to go through sound checks for the music and microphone as well as checking the lights for Juggling.

PERFORMANCE TIME:

It is advisable that the best time to go onstage is when people are not eating. It is hard for people to be part of the show if they are distracted by something else.

The prime time for the performance is between the main course and desert, being sure all plates have been removed.

STAGING:

Large table centerpiece decorations such as balloons need to be removed to make a clear line of site to view the performance.

No dance floor in front of the stage. Tables should be a maximum of three metres from the stage and a minimum of 1 metre.

Although Larger Stage sizes are preferred, a minimum working space would be 6m x 4m with a suitable height to throw 7 balls, and 5 clubs up in the air and catch them!

LIGHTING:

If lighting is available a follow spot should be accessible.

SOUND:

A Performance CD will be given to the audio operator to control the music cues.

James will supply his own radio headset microphone, although if the event has headset/lapel microphones available they would be used.

A wireless handheld microphone should be supplied in the event of emergency.

VIDEO SCREENS:

Video screens are a great option by the client especially in larger rooms so that everyone in the room can see clearly and get close-ups of the performance.

DRESSING ROOM:

A Costume change area for privacy is needed before and after the show.

MEALS:

Meal and water/soft drink for James is required.

FOOTAGE/PHOTOGRAPHY:

If footage is filmed during the performance, James would appreciate to receive a copy of this footage or photography.
